BLOEMFONTEIN RETAKEN BY STEYN

The Tide Turning in Favor of the Boers Again.

GEN. FEWET WITH 13,000 BOERS MARCHING TO RETAKE JOHANNESBURG

Buller Fights the Boers at Almond's Nek and Takes a Position With Bayonet--Casualties Less Than 100.

By Associated Press to the Journal. London, June 12.—The war office posts the following from Buller: "We forced Almond's nek. It is the last defile to the Charlestown flats. Enemy was met in considerable force, with several guns in position. The brunt of the fighting fell upon the Second Dorsets, who carried the position at the point of the bayonet, and the third cavalry brigade, who were heavily attacked. I hope our casualties are less than 100."

London, June 12.—Plentiful reports are filtering through Lourenco Marques. According to these, General Dewet, with 13,000 Boers, is marching on Johannesburg. The Boers have retaken Bloemfontein, where President Steyn again occupies the presidency. The British sustained a severe defeat at Ellansfontein, and lost 750 killed and wounded and 120 prisoners in a fight at Verderfont.

Nothing from any sources lends color to these stories with the exception of the last, which is probably the Boer version of the disaster to the battalion of the Derbyshire regiment at Rooval.

June 11th President Steyn was at Vreder, 200 miles from Bloemfontein. A dispatch from Lichtenburg says that sixty of the Johannesburg mounted policemen, with a Maxim gun, surrendered to General Hunter.

BOER AND BRITON IN THE TRANSVAAL

By Associated Press to the Journal. London, June 12.—Fifty thousand British troops are within half a hundred miles of the marauding Boers north of Kroonstad, and they are expected, of course, to make short work of them. Nevertheless, outside of the War Office telegrams, no one knows what is going on. South of Kroonstad there is a wide gap. The railway is only partially defended, and, as General Kelly-Kenny has hurried all the available troops northward, the assumption is that there is danger of a second raid. A dispatch from the Derbyshires is estimated at from 600 to 700 men.

A Reuter dispatch from Maseru, dated June 11, 8:33 p. m. says: "Fifteen hundred Boers surrendered to General Brabant today in the Ficksburg district." Machadopolis has been officially proclaimed the capital of the Transvaal. A Lourenco Marques dispatch says that the village has swelled into a small city, the majority of the inhabitants living in tents.

An official Boer telegram asserts that the British have been defeated with considerable loss at Donkerpoort, in the

southern extremity of the Free State, or Orange River Colony, 10 miles from Norval's Point. It was thought that this district had been cleared of Boers and rebels long ago.

The Boers still cling to Laing's Nek, but General Buller's forces are still working far around in that direction. Lord Roberts has wired Cape Town that prior to Wednesday he liberated 151 officers and 3500 of the rank and file. The Boers, consequently, took off only 900.

FROM KENNY-KELLY AT BLOEMFONTEIN

By Associated Press to the Journal. London, June 12.—The war office has received the following from General Kelly-Kenny: "Bloemfontein, June 12.—Our troops from the north are at Honing spruit, (South of Rooval where the Boers cut the British lines of communication,) having defeated the enemy. They will be at America siding tomorrow. General Knox moves out from Kroonstad to intercept the enemy."

INSURGENT LEADERS CAPTURED

By Associated Press to the Journal. Washington, June 12.—MacArthur at Manila cables as follows: "I report the capture of General Rhizon near Mexico and Cavestany at Alcala, both important, the latter is an important leader of the Guerrillas in Pinar del Rio province, Luzon."

General Corbin attaches considerable importance to these captures. In his opinion they are in the nature of surrenders and indicate that the principal leaders of the insurrection are abandoning the cause.

OUR ATTITUDE TOWARD THE BOXERS

By Associated Press to the Journal. New York, June 11.—A special to the Tribune from Washington says: "The intervention of the United States in the Chinese crisis, involving the representations already made by Minister Conger, together with the action taken by Admiral Kempff, both under the discretion allowed them by the President's instructions, are declared officially to exhaust this government's resources, so far as they can be applied at the present time."

Without a distinct change in national policy, which is regarded as most remote, and except under gravely complicated international conditions affecting not only the stability of the Chinese Empire, but the equilibrium of Europe, the officers of American agencies at Peking and Tien Tsin, as well as

in future center of disturbances, will be limited to such efforts for the protection of American interests as the participation by Minister Conger in the insistent demands made by all the foreign representatives upon the Tengg li Yamaun and the Dowager Empress for affording security to the life and property of aliens, and as the landing of armed forces and the dispatch of gunboats to furnish the necessary protection in case of China's failure to comply.

GREAT NORTHERN TRAIN DITCHED

Two Engines and Four Coaches Wrecked Twenty or More Passengers Injured But None Killed.

By Associated Press to the Journal. St. Louis, Mo., June 12.—A special to the Globe Democrat from Spokane, Wash., says: "Meager particulars have reached here that the Great Northern east-bound passenger train was derailed at Summit, Mont. It is supposed that the accident was the result of a broken rail. Two engines and four coaches are reported to have gone into a ditch. A score or more passengers are injured but none killed."

DEVRIES NAMED FOR BYNUM'S PLACE

By Associated Press to the Journal. New York, June 12.—A special to the Herald from Washington, says: "Representative Devries, of California, has been appointed on the Board of General Appraisers of New York, caused by the failure of the senate to confirm the appointment of W. D. Bynum of Indiana."

ROTTEN FOOD AT THE PORTO RICO PRISON

By Associated Press to the Journal. San Juan, June 12.—Five hundred inmates of the penitentiary here united and refused to take breakfast. They asserted that the food was not fit to eat, and the leader struck the warden in the face.

PEACE REIGNS IN ST. LOUIS

By Associated Press to the Journal. St. Louis, Mo., June 12.—All lines of the transit company are in operation, but only a portion of the cars are running. On some lines the police guards have been dispensed with. The mayor's proclamation forbidding the use of explosives or fire arms, and warning those having no business in the streets to keep off is having a good effect.

\$250,000 in Gold at Assay Office. SEATTLE, Wn., June 12.—The season opened at the United States assay office very auspiciously, there being \$200,000 worth of gold dust deposited by 50 miners, who came down from the North.

SLOT MACHINE ORDINANCE

Signed by the Mayor and Now in Full Force in Salem. At 1 o'clock this afternoon Mayor Bishop signed the ordinance in the slot machine ordinance and the same is now in force. This makes the license now due and payable. The rate is \$6 per quarter and no license will be granted for less than that length of time. The Assessor's electric lighting franchise ordinance has also been signed, and Mr. Anson has filed a bond in the sum of \$5,000 to guarantee the fulfillment of his obligations in the contract. This bond will not do but be officially approved by mayor in the near future, when operations may begin for the erection of the plant. Mr. Anson is offered four different sites for his establishment, all of which he is considering, but has arrived at no conclusion as to where it will be located.

SITUATION IS CRITICAL

U. S. Consul Martin Asks for a Cruiser.

MORE NATIVES ORGANIZING INTO SECRET SOCIETIES

Policy of Our Government will Be to Enforce Chinese Responsibility and Act Independent of Other Nations.

By Associated Press to the Journal. WASHINGTON, June 12.—The following has been received at the state department: "Chin Kiang, June 12.—A large number of natives have organized a secret society, and are halted here. The people are very apprehensive. We have no protection. We want a cruiser, "Martin."

Martin is the United States consul at Chin Kiang.

THE SITUATION IS VERY CRITICAL

By Associated Press to the Journal. WASHINGTON, June 12.—The cabinet meeting was devoted largely to a discussion of the Chinese situation. Secretary Hay laid before the cabinet dispatches from Minister Conger, which indicate that the situation is very critical. It was decided to stand by the policy of acting independently as far as possible. The Chinese government will be looked to under the general laws of nations to restore order and make reparation. From any political schemes in which many powers may become involved, the United States is to hold aloof.

CHINESE WIN AGAIN.

Another Victory Over the San Francisco Board of Health.

By Associated Press to the Journal. SAN FRANCISCO, June 12.—Judge Morrow, in the United States Circuit Court, enlarged the restraining order now in force against the Board of Health by adding a prohibition against excluding physicians employed by the Chinese from attending autopsies held after death on the bodies of their patients. Attorneys representing various Chinese interests applied to have the order enlarged.

The motion is in consequence of the act of Drs. Kellogg, Chalmers and Wilson, employees of the Health Board, who performed an autopsy Saturday on the bodies of an adult and an infant from which they excluded Mrs. Pillsbury and and Hodghead, who had attended the deceased during their illness. The case of the infant had been diagnosed by Drs. Pillsbury and Hodghead as peritonitis, and of the adult as heart disease.

After cutting up the bodies in secret, the doctors of the Health Board announced that the cause were "suppurative." Attorney Shortridge declared that the Health Board had committed contempt of court, and threatened to have them cited to show cause why they should not be punished. In order to prevent a recurrence, and to make no doubt of the extent of the restraining order issued last week, they applied to have it enlarged.

Boatman Appointed. Governor Geer today named a boatman to assist the health officer at Astoria, one Cosmo Franciscovich to succeed in vacancy caused by death of Domingo Bezerich. His appointment is a Russian Finn, and his selection is due to his prominence as a local Republican worker among his nationality. His name was all that made the Governor hesitate at all.

ROYAL Baking Powder

Absolutely Pure

Makes hot breakfast-breads wholesome—no yeast germs, no alum. Makes cake, biscuit and pastry of superior fineness, flavor and delicacy. Makes food that will keep moist and sweet. Is most economical, because it is the purest and greatest in leavening strength. In the easy, expeditious preparation of the finer cakes and pastries, Royal is indispensable.

Care must be taken to avoid baking powders made from alum. Such powders are sold cheap, because they cost but a few cents per pound. Not only will they spoil the cake, but alum is a corrosive acid, which taken in food means injury to health.

By Associated Press to the Journal. BERLIN, June 12.—The Reichstag today passed the navy bill.

STATE FAIR BOARD.

Holding a Session in Preparation for the Event of 1900.

President W. H. Wehrung, Secretary M. D. Wisdom, and Trustees Geo. L. Ross, J. H. Settlemier, Jasper Wilkins and George Chandler are in the city, holding a three day session of the State Fair Board.

They are meeting in the adjacent general's office in the basement of the state house and will hold sessions Wednesday and Thursday. This forenoon they were out at the grounds and found all in good shape under Supt. I. C. Mosler. The track is fine, and many horses will be up from Portland this week. Some special committees are to be

named at this session, and some minor details essential to a good fair are to be arranged. There will be no Sunday fair this year, and the Salem fair has been put on the racing circuit with all the Pacific coast states. All the horses and a great deal of the stock from the California state fair will come direct to our state fair, which opens two days later. Salem is to have a special purse race, and Portland day this year is an assured success, so far as it is possible for the vigilant officials who have the matter in charge to make it so.

GYPSY-SUNK.

Runs on a Snag Near Independence and Found Bottom.

The Steamer Gypsy of the O. R. & N. Willamette river fleet ran on a snag as she came down the river Monday afternoon, tearing a hole in her bottom and sinking in ten feet of water. The passengers and crew escaped, but about 40 to 50 tons of freight was submerged, including 100 barrels of flour from Sidney mills consigned to the Sidney Flouring Mills Co. Master Builder Carson, of the O. R. & N. is at the scene of the wreck with the steamer Modoc, and will make arrangements for raising the wreck.
